

# Safety Guidelines

We've increased hygiene and cleaning protocols in our SapNaz Kids spaces before and during services.

When you arrive, be ready for a redesigned, touchless check-in process to help support a safe environment. Additional hand-sanitizing stations are available at check-in.

**Every staff member, volunteer, and child in SapNaz Kids will have their temperature taken before checking in. We aren't able to check in anyone with a temperature of 100.4 or higher.**

Personal items (i.e. diaper bags & carseats) should be left outside of the nursery. We have diapers & allergy-friendly snacks.

We encourage you to only send one parent with your child/ren for drop-off and pick-up to help limit traffic.

Be sure to use hand sanitizer or wash your hands before entering SapNaz Kids. Encourage your child to do the same.

You'll see lots of big waves and air high-fives; let's avoid hugs, high-fives, and handshakes.

Children are still welcome to join in the main service.
